

# Submission Innovation Award 2025

**Categorie: Research and science**

(an award presented to colleges/universities and institutes)

In order to assess the results achieved and the scientific progress made, a clear and comprehensible presentation of the path taken is required - this includes the scientific foundations, concepts and ideas, path to knowledge, random observations and the like. Information on the research period and, if applicable, the type and number of academic papers (project work, bachelor's theses, master's theses, doctorates, R&D projects, etc.) is very helpful.

**Title of the submission**

**1. Outstanding scientific work**

## 2. Level of innovation

### **3. Technical feasibility**

### **4. Sustainability**

**Contact data submitter(s)**
